SERVICES**

School Safety Assessments

- Identify specific strategies to make your schools safer
- Reduce Crime, Violence and Disruptive behavior, and/or their opportunities
- Reduce potential liability
- Improve school-community relations

“Because it’s the **RIGHT thing to Do”**

Understanding the Audit Process

- School Safety & Security is **EVERYONE'S RESPONSIBILITY**
- Provides a snapshot of a school and district's level of security/safety
- Identifies **BOTH** strengths and areas for improvement
- Is an ongoing process

Our Assessment TEAM

- 1) This assessment team has direct experience in conducting school safety assessments
- 2) We will focus on both the positives already in place, and opportunities we identify to strengthen safety and security
- 3) We are NOT product or service driven
- 4) We do NOT subscribe to the “GOTCHA STYLE” Assessments

Site Visit's started today

- All of our Team Members are either current or former Law Enforcement or Educational executives.
- Flexible, no desire to change the normal flow of your school day.
- Operate under the radar screen.
- Generally, they will check-in, operate alone, leave you with their contact information for follow-up.
- Very focused on what is working already.

Key Assessment Areas

- Safety Policies
- Physical Structures
- Access Control / Keys
- Visitor Management System
